THE SECRET REVEALED

You can literally DOMINATE using this little known technique that I use myself and have used to get endless optin leads to my network marketing business (GDI) on autopilot.

All it takes is 1 to 2 hours per week to set it up.

1) Create a free auto responder account here:

<http://sendfree.com/signup>

2) Create an auto responder campaign (I'd say... 20 days worth) Make sure you include your global domains international (GDI) link and space it out every 2 to 3 to 4 days apart.

You should create 20 autoresponder messages TOTAL.

3) Go to Craigslist.com and post in every city possible to the "jobs" category and these 2 subcategories...

sales / biz dev

marketing / pr / ad

4) Post the following subject line and sentence (Ad) (include your send free auto responder url) as follows...

Subject: Seeking Marketing Sales Managers (Will Train) 6 figure potential

AD BODY: (Will Train) Seeking 10 motivated individuals who have the burning desire to make up to 6 figures per year (10k per mo earning potential) accepting applications thru e mail only.

Please send your inquiry to...

{ your sendfr.ee autoresponder email }

2346

5) At the very end/bottom of every single post you must include a 4 digit number (As shown in the above ad) and it must be different for each post! (so you don't get DELETED!)

Once you set this up you will get a tidal wave of leads that won't quit!

You MUST also change up your subject line and body of your ad for each post or you will be DELETED!

Remember, you are recruiting people looking for regular 9 to 5 jobs so you need to show them a way out. This is where your own creativity and personality will shine. Be helpful and show them it is not only possible to make a living online but also a 6 figure income!

Most people are programmed to think that anything outside of a 9 to 5 job must be a pyramid scheme or rip-off. Understand this and communicate the GDI opportunity to them in each auto responder message you have written so they can see thru that myth.

Your goal is to convert these leads into sales and build your GDI downline by giving them a copy of this very report!

Only give them this report after they have joined GDI.

Now, all you have to do is post to Craigslist every morning and you will see a FLOOD of people responding to your job offer. They will search for jobs long after your ad has been taken off the front page and it stays active for a full 45 days! The trick to keeping the momentum going is to post every day or every other day.

With the economy being the way it is you should be getting lots of people who are sick of working for someone else or looking for a way to make money from home, this is what makes this so effective.

Well, now that you know my GDI secret, I wanted to share this with you... **I figured you might be interested in saving hundreds of dollars worth of gas.. and also improve you car's performance!** Here's a page where you can read all about it. hope you enjoy it:
